EXPLANATORY NOTE

District Designation By-law

On April 29, 2008, Toronto City Council adopted 325-2008, which designated the area shown on the map attached to this note as the Cabbagetown Northwest Heritage Conservation District (the District) under Part V of the Ontario Heritage Act (the Act). The By-law also adopts the Heritage Conservation District Plan and Guidelines, dated August 2007.

Alterations to Property

The purpose of By-law No. 325-2008, is to maintain the heritage character of the Cabbagetown Northwest Heritage Conservation District. This is accomplished by requiring certain alterations to buildings within the District to conform to Guidelines which are included in the District Plan. Typically, these alterations only relate to portions of the property that are visible from the street (ie the façade). For example, no heritage permit is required for exterior work that is not visible from the street, interior work, painting, and repairs using the same materials. If the proposal conforms to the Guidelines it can be approved by staff. Applications that do not conform to the Guidelines will be referred to City Council for consideration.

Demolition and Infill Development

Under By-law 325-2008, owners of property are required to apply for a heritage permit before demolishing any building in the District. Demolition applications are referred to City Council for consideration. If City Council refuses the permit, the applicant may appeal to the Ontario Municipal Board. New (infill) construction must contribute to the heritage character of the District, as per the District Guidelines.
