## SCHEDULE "B" - STATEMENT OF REASON FOR DESIGNATION

The former Osgoode Township Hall is recommended for designation because of its cultural heritage significance. Designed by Ottawa architect James Mather and built in 1891, it is an example of a brick, classically-inspired, township hall. This type of hall had many purposes in 19th century rural Ontario communities, serving the municipality for township meetings and housing municipal records. When not in use for municipal purposes, halls were used by a wide variety of local organizations as meeting and recreational space. The former Osgoode Township Hall is a strong contributing element to the village of Metcalfe streetscape and has served as the focus of community activity and pride since its construction.

The attributes that reflect the cultural heritage value of the former Osgoode Township Hall include the brick cladding, classically-inspired pediment over the entry bay, bell tower and round-arched transom window with voussoirs over the double front doors. Contributing Italianate elements are the decorative brackets and segmental-arched windows with brick label moulds. Its style, execution and details indicate the importance of the building to the community.

The interior of the building and the addition to the north and east are not included in this designation.
