### Statement of Reasons for Designation

#### Design and Physical Value

The building, which was constructed 1923 as a replacement for an older Victorian public school, demonstrates the key characteristics of Beaux-Arts educational design as executed in urban and village areas, including symmetrical massing with a central hall, and Classical design elements. The school is also demonstrative of trends in educational architecture which developed and matured in the late nineteenth and early twentieth century emphasizing new ideas regarding hygiene, ventilation, and safety incorporated into school design. It is Woodville's only school.

#### Historical and Associative Value

109 Nappadale Street has historical and associative value in its role as a local public school. Opening in 1923, the school was constructed to replace an older Victorian school house and to accommodate both growing population of Woodville and the surrounding area and continuation classes for secondary students. It yields information regarding the development of education in Woodville and rural Eldon and Mariposa Townships in the early decades of the twentieth century and the role of Woodville as a settlement around for the surrounding rural region. The property also has significance as the work of Lindsay-area architect John Thomson Hornsby who operated in the area in the 1920s and 1930s and executed a range of Classically-inspired public and private commissions throughout Kawartha Lakes and the wider region.

### Contextual Value
