NOTICE OF INTENTION TO DESIGNATE PROPERTY
UNDER THE *ONTARIO HERITAGE ACT***

In the matter of the *Ontario Heritage Act*, R.S.O. 1990, c.O.18 as amended and in the matter of lands and premises described as Concession 10, Part Lot 10, 11, and 12 and municipally known as 14125 11th Concession in the Township of King in the Regional Municipality of York, Province of Ontario:

**English Wheat Barn at Cold Creek Conservation Area
14125 11th Concession
Assessment Roll # 073 300**

Description of Property

The English Wheat Barn is located within the Cold Creek Conservation Area. The Cold Creek Conservation Area is an ecologically diverse area within the Humber River watershed with both natural heritage and cultural heritage resources located at 14125 11th Concession. At 470 acres, it is situated on the east side of 11th Concession Road, adjacent to the 15th Sideroad, on the whole and parts of the west halves of Concession 10, Lots 10, 11, 12 and 13.

The specific area that is to be designated for its cultural heritage value or interest under Part IV, s.29 of the *Ontario Heritage Act* is identified as Part 1 on Registered Plan 65R-32566.

Statement of Cultural Heritage Value or Interest

Design/Physical Value

The barn is a rare example of a mid 19th-century English Wheat Barn. It continues to demonstrate the features once common in Upper Canada barns designed to manually separate grain while incorporating features related to its evolving agricultural use for feed storage and housing of livestock. The quality and dimension of original interior material, rare features, and its high degree of craftsmanship displayed by its design and construction serve as a visible reminder of the importance of barns to our agricultural past.

Historical / Associative Value

This rare example of a mid 19th-century English Wheat Barn was built during Upper Canada's wheat boom to facilitate the hand process of separating grain from the chaff prior to the introduction of field thrashers. The barn is thought to have been built circa 1840 – 1860.

Contextual Value

The hillside location of this mid-19th century barn allowed agricultural equipment access for feed storage on the upper level and lower level access for livestock shelter. For approximately 150 years the barn and its immediate landscape served as a link to our rural past.

Description of Heritage Attributes

The heritage attributes of the mid 19th-century English Wheat Barn, its representation of a past farming practice, and its influence on the rural character of the landscape are portrayed by:

The existing position, placement and material of the barn's

- fieldstone foundation and byre
