**SCHEDULE "A"****REASONS FOR DESIGNATION**

The property at 53 Old Kingston Road is recommended for designation under Part IV of the *Ontario Heritage Act* for its cultural resource value or interest. Location on the southwest corner of Old Kingston Road and Manse Road, the house was constructed in 1908 for Herb Duncan.

The Herb Duncan House is of architectural interest as a good example of the Bungalow Style with Arts and Crafts detailing. Contextually, it is situated in the West Hill neighbourhood of Scarborough where it is part of an enclave of 10 buildings that are recognized on the City of Toronto Inventory of Heritage Properties.

The heritage attributes of the Herb Duncan House are found on the exterior walls and roof. Clad with red brick and trimmed with stucco, brick, precast stone and wood, the structure rises 1½ stories above a raised basement with window openings. The house is covered by a gable roof, whose north slope is extended to cover an open verandah. A brick chimney marks the ridge, purlins support the extended eaves, and gabled dormers dominate the north and south slopes. The north dormer displays stucco facing, half-timbering and an exposed ridge beam. It incorporates paired flat-headed window openings with sash windows. The principal (north) façade of the house is protected by the full-length open verandah with wood columns supported on brick piers (the original verandah supports were replaced). Sheltered by the verandah roof, the main entrance to the building has a wood door with glazing that is centred between double segmental-arched window openings with brick voussoirs. Single and double segmental-arched window openings in different sizes are found on the side walls (east and west). A single-storey sunroom with a hipped roof and multi-paned windows marks the west elevation. The house is extended to the south by a single-storey brick-clad wing with segmental-arched door and window openings.
